## 1 Introduction

atvise has proofed its capabilities and its reliability in many projects on every continent. It has been successfully used by system integrators and product vendors in nearly any field of the automation industry. This paper includes only information on atvise used within the field of building automation.

The following selection of atvise references, shall give an impression of our customers and their projects.

This document may not be distributed to other parties without the written permission of Certec EDV GmbH.

## 2 Extract of References in Building Automation

### 2.1 Siemens

Company: **Siemens Building Technologies (Switzerland)**

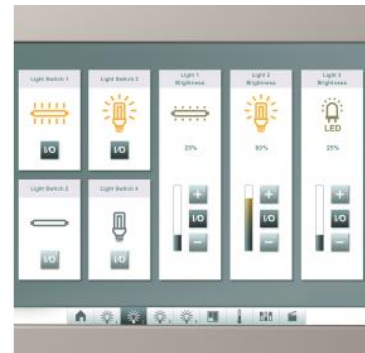

Building Technologies

Products: **atvise webMI HMI For Siemens BA BACNet Gateway And Touch Panel**

At Siemens Switzerland Ltd, Building Technologies Division atvise® webMI is used within building automation, where it is deployed only project related in panels and I pads to control and monitor room controls.

„Intuitive user interface with touch panels significantly simplifies the room controlling and by the use of atvise® software we can fulfill various requirements. We were convinced by the constant usage of open standards, which we at Siemens pursue for many years and the simplicity of the atvise® software“, says Pius Widmer, Global Portfolio Manager Room Solutions at Siemens.

## 2.2 Austrian Airlines

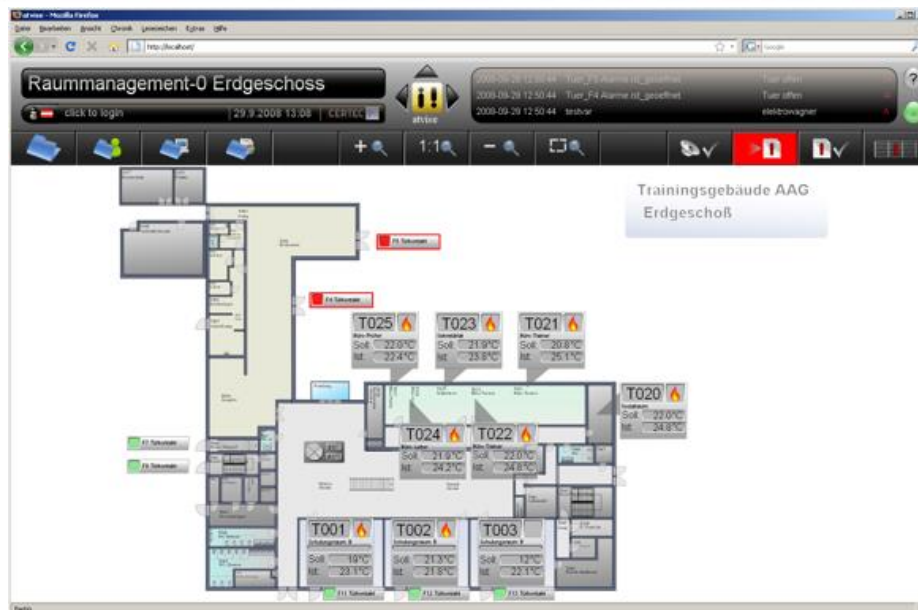

Company: **Ing. Emmerich Csernohorszky GmbH**

Industry: **Building Automation / Industrial Plants**

Project(s): **Austrian Airlines Training Center**

In collaboration with nxtControl GmbH and Certec, Csernohorszky installed a state-of-the-art building automation system for 140 offices and training rooms of a new training center. The system includes a room reservation application and visualization based on atvise. With that, any operator with the necessary rights has full control from every place at Austrian Airlines.

## 2.3 Deutsche Bank

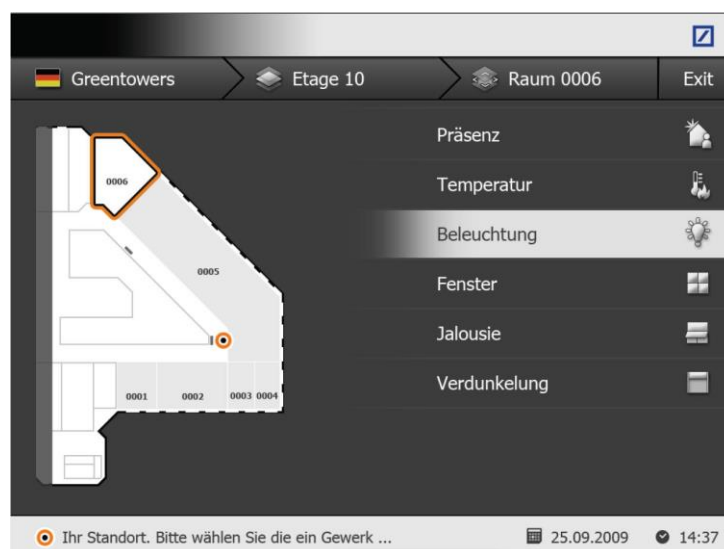

Company: **Leicom GmbH  
(Switzerland)**

Industry: Building Automation / Industrial Plants

Project(s): Building Automation Deutsche Bank Frankfurt

At the Deutsche Bank Frankfurt – the biggest building of this City – each level can be operated via one of the 140 Touchpanels with atvise in combination with a web server integrated in each Bernecker & Rainer PLC.

## 2.4 Bank Building in Switzerland (Name is confidential)

Company: **Lippuner  
(Switzerland)**

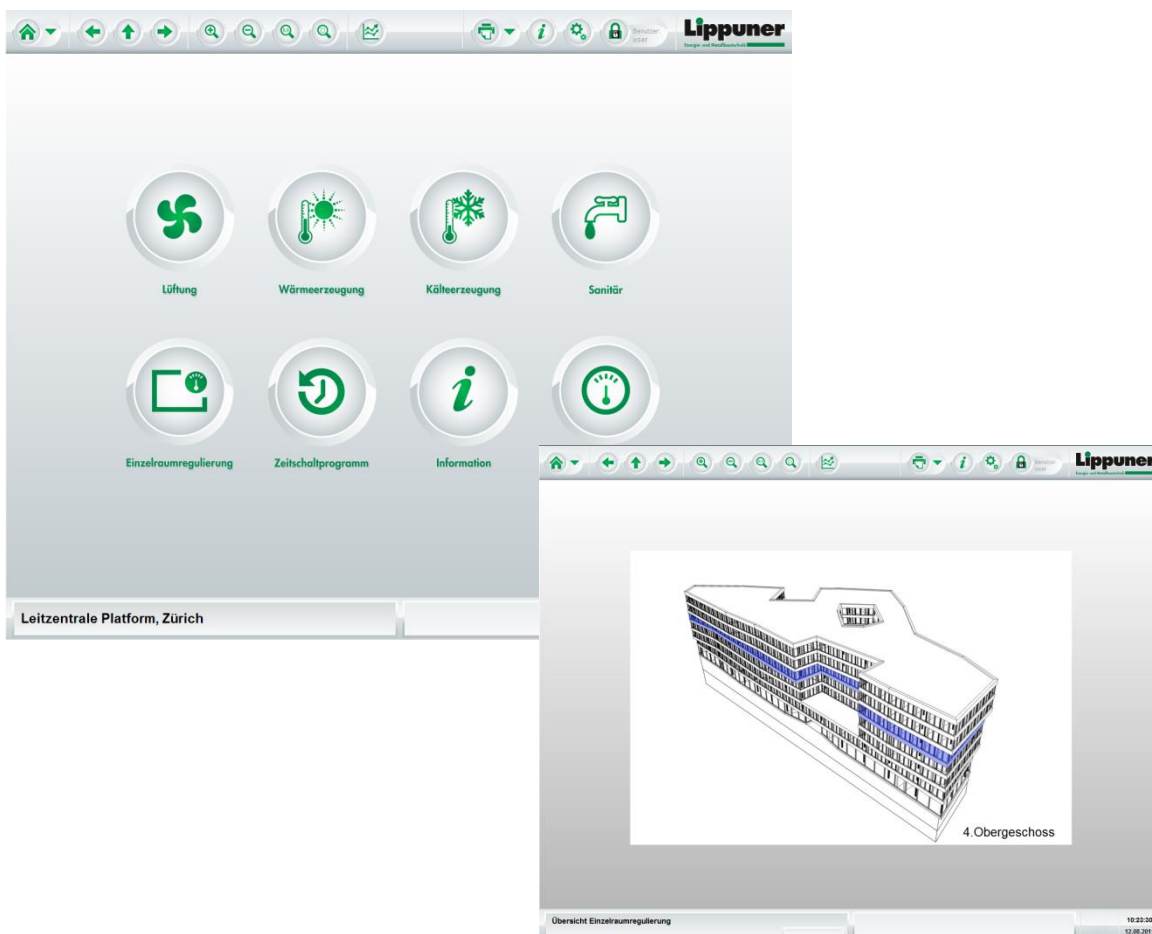

Industry: Building Automation

Project(s): Building Automation for Swiss Bank

Lippuner Energie- und Metallbautechnik AG successfully offers atvise within their building automation segment.

This project, a building control system of a Swiss bank has been implemented with atvise scada. The screen images below demonstrate the unrestricted customization possibilities of the graphical HMI interface of atvise.

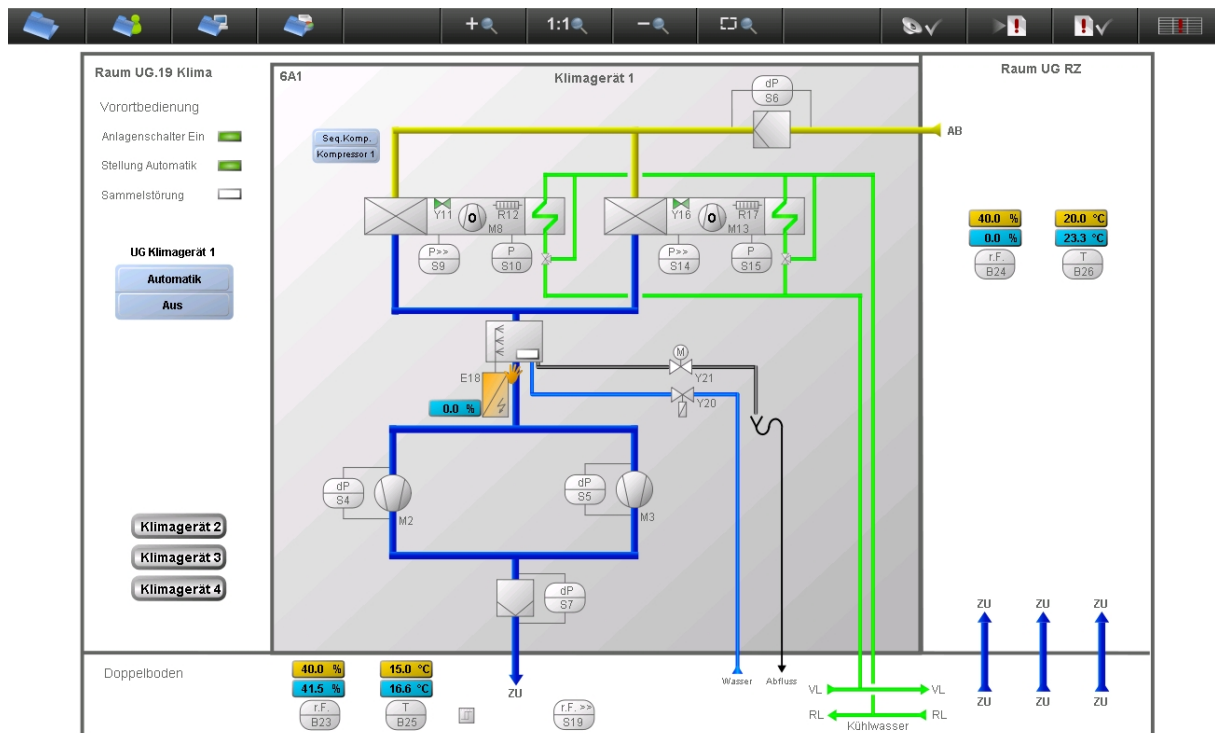

## 2.5 Server Center Hannover

Company: **Tessmar GmbH  
(Germany)**

Industry: **Building Automation**

Project(s): **Server Centre Hannover**

## 2.6 Herrmann Leittechnik - Building Automation Control System

Company: **Herrmann Leittechnik GmbH (Germany)**  
Industry: Building Automation / Industrial Plants  
Project(s): Building Automation Control System

---

## 2.7 Various Partners

---

Company: **RTW Nossol GmbH  
(Germany)**

Industry: Building Automation / Industrial Plants

Project(s): Sparkassenverbund Winsen

---

---

Company: **GTS Automation GmbH  
(Austria)**

Industry: Building Automation / Industrial Plants

Project(s): Building Automation Projects

---

---

Company: **automationNEXT GmbH  
(Austria)**

Products: atvise HMI For next.system: The Next Generation Building Automation Control System

---
